First day: Arrival

- The first day was the day of arrival and we were driven by car to the house where we lived. Before arriving and even sitting in the car, we met all of the people who took part in the project. Some of them were Italians, Germans and Latvians. We were all very happy and excited to meet our hosts. Then all continued in the car where we all discussed many things about Latvia and the arrival. At home in Lielvarde we were eating lunch. After that the host partner stored his baggage in his room. Then we went to discover the city where we lived and we bought some Latvian sweet things as sweet cottage cheese. Then we went back to Riga and went to cafe with other Erasmus students. We got a really fun time.
